NOTE Z
NO-DISCHARGE ZONE, 40 CFR 140
Under the Clean Water Act, Section 312, all vessels operating within a No-Discharge Zone (NDZ) are completely prohibited from discharging any sewage, treated or untreated, into the waters. All vessels with an installed marine sanitation device (MSD) that are navigating, moored, anchored, or docked within a NDZ must have the MSD disabled to prevent the overboard discharge of sewage (treated or untreated) or install a holding tank. Regulations for the NDZ are contained in the U.S. Coast Pilot. Additional information concerning the regulations and requirements may be obtained from the Environmental Protection Agency (EPA) web site: http://www.epa.gov/oww/oceans/regulatory/vessel_sewage/.

NO-DISCHARGE ZONE
(see note Z)

NOAA WEATHER RADIO BROADCASTS

NOAA Weather Radio stations listed provide continuous weather broadcasts. The transmission range is typically 20 to 40 nautical miles from the antenna site, but can be as high as 100 nautical miles for stations at high elevations.

Channel	Frequency	Power
16A	162.550 MHz	100W
16B	162.400 MHz	100W
16C	162.450 MHz	100W
16D	162.425 MHz	100W
